

ABSORBENT

THE ENVIRONMENTALLY SOUND SOLUTION FOR OIL AND CHEMICAL SPILLS

SpillSorb is the number one choice when it comes to treating chemical and hydrocarbon spills. SpillSorb has a 'barrel' cell structure that encapsulates pollutants not found in other products. SpillSorb is also non-toxic, biodegradable and self-generating in its natural state, with no danger to the environment.

BENEFITS OF SPILLSORB

- 100% organic
- Achieving better bioremediation due to added nutrients in the product
- Non - toxic, biodegradable and self - generating in its natural state
- Unique encapsulating qualities
- Eliminates up to 90% of VOC's (Volatile Organic Compound and LEL's (Lower Explosive Limit)
- Light-weight and easy to apply
- Powerful wicking action
- Custom packs on request

SpillSorb™

will absorb the following pollutants

• OILS AND FUELS

Motor oil
Jet fuel / Gasoline
Diesel fuel
Mineral oils
"Bunker C" crude oil

• ALCOHOLS

Methyl alcohol
Ethyl alcohol
Isopropyl alcohol

• INSECTICIDES / HERBICIDES

Dioxin
DOT
Round-up

• SOLVENTS

Methyl-Ethyl Keytone
